THE USES OF SLANG Criticism of President Hadley for Using Poker Terms.

Using Poker Terms.

The use of poker terms by President Hadley at the claner recently given to the Russian hence pliniotentiaries has been sharply criticised by some as in violation of good tasto as well as of the disnity of the occasion. Their contention is well taken, and yet there is something to be said in defense of what is ordinarily called "slang" when the slang terms add to accuracy and vividness of description and characterization.

Language lives, like any other growing organism, by feeding. It appropriates terms peculiar to a trade, a sport, a locality, a class of a clique, and makes them a part of itself. These tarms sometimes are used in their ownspecial, technical series when mention of the thing necessitates the appropriate phraseology. The vague use of general terms betrays ignorance. The right word insures definitences and avoids tedious circumiccution. But often these expressions pass into the higher sphere of language. They are used metaphorically. They become postic. They are part of the soul of opsech. The English language has never refused this source of supply. It has taken scientific terms and the like in their natural state, and it has awallowed others with the saurce of trapping and their natural state, and it has awallowed others with the saurce of trasgination. From games and sports it has always drawn, freely. To discard, to check, to make a hit, to miss fire are examples. This process continues. To stand parties faction with present conditions. and though the phrase is new to a portion of the public, it bits fair to remain. The only questions to be asked are, is the phrase understood by its hearsets? Is it vivid? Is it timels? Is it decent? If the answer in each case is affirmative the law of language admits the phrase. One who would mold the opinions of others must place himself in friendly relations with them. He cannot afford to display an ostentations because of their houghts or of their medium of communication. Still less can be afford to be actually ignorant. There are appeal MADAME ZELMA, CELEBRATED palmist and occult scientist. Hettty Green's Religious Views. "The meeting doesn't begin until half-past; and it's not yet I o'clock," she explained as the led me down the long aids to the second pew and invited me to sit close to her in the orner of it. My friend and I came early, in order to get good seats.

"Is this church your shade of belief?" I raked.
